

**REMARKS/ARGUMENTS**

This case has been carefully reviewed and analyzed in view of the Office Action dated 10 January 2007. Responsive to the Office Action, Claims 1, 3-7, and 9-13 have been amended for clarification thereof and to correct typographical and grammatical errors. Certain paragraphs of the Specification have been amended to correct certain typographical and grammatical errors and no new matter has been added. Claims 1-13 remain pending in the subject Patent Application.

In the Office Action, the Examiner objected to Claims 1-13 generally due to certain informalities, accordingly Claims 1, 3-7, 11, and 13 have been amended to correct the typographical and grammatical errors. The Examiner also rejected Claims 1-13 under 35 U.S.C. § 112 paragraph 2 as being indefinite. All instances of indefiniteness cited by the Examiner have been amended and are now believed to be definite and particularly point out and distinctly claim the subject matter of the invention.

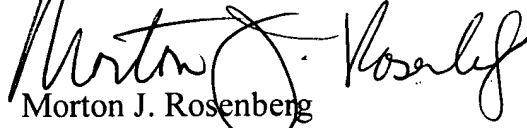

The Examiner kindly indicated that Claims 1-13 would be allowable if amended to overcome the objections and rejections set forth in the Office Action. Claims 1-13 are now believed to be allowable.

It is therefore now believed that the subject Patent Application has been placed in condition for allowance, and such action is respectfully requested.
